Note: Rustsatz G2/R1 option could carry 250Kg Bomb, but FAF never used this feature on this Aircraft.													

This aircraft arrived in Finland on 10-May-1943 with the temporary delivery Stkz of JU+XY instead of BG+OM. Original BG+OM was damaged in late 1942 in Stalingrad, Russia & was sent to a Repair Factory. Substantial structural components were replaced which made the original factory Stkz not relevant; however, the Work Number always stays the same. The aircraft was shipped to Finland as part of an order of 12 additional aircraft. The temporary delivery Stkz was logged in the LeLv 34 daily log & the temporary Stkz JU+XY was logged by the paint shop that applied the Finnish National emblems, camouflage & MT-217. There is a new book from Finland called 'Mersu - The Messerschmitt Me109G in Suomen ilmavoimat' by Kari Stenmann that makes specific mention of this temporary Stkz.
